

Additional national operational objectives for KA2 strategic partnerships in 2020 by sectors

School education

1. Enhancing equity in school sector and increasing number of institutions participating in the programme from pre-primary and primary sectors.
2. Inclusion: ensuring access to quality education for all learners from different background and with different learning needs.

Vocational training

Develop and support the arrangements for the preparation and training of VET learners and staff for participation in international, national and sectoral skills competitions.

School education, Higher education

Enhancement of attractiveness and quality of STEAM (Science, Technology, Engineering, Art and Math)

Higher education

Enhance provision and quality of teacher education
